

Track your sales. Know your commish.

REPCOMMISH.COM

Sales & commission tracking for independent reps

Your spreadsheet held together by prayers and conditional formatting? It's time to retire it.

REPCOMMISH replaces the scattered spreadsheets, mental math, and "I think they owe me..." guesswork with one simple dashboard. Track every order, auto-calculate every commission, and always know exactly what you're owed — across all your brands. Think of it as a personal accountant that never sleeps, never miscounts, and never asks for a raise.

WHAT YOU GET

Multi-Brand Dashboard

All your brands, one screen. Total sales, commissions earned, and what's owed. No more tab-switching like a maniac.

Commission Tracking

Auto-calculated from your orders. Track who paid, who partially paid, and who's pretending your invoice got lost in spam.

Order Management

Every order from "just placed" to "closed and celebrating." Import in bulk or add one at a time — whatever matches your chaos style.

Payment Management

Record payments, track outstanding balances, import from CSV. Full payment history, zero guesswork.

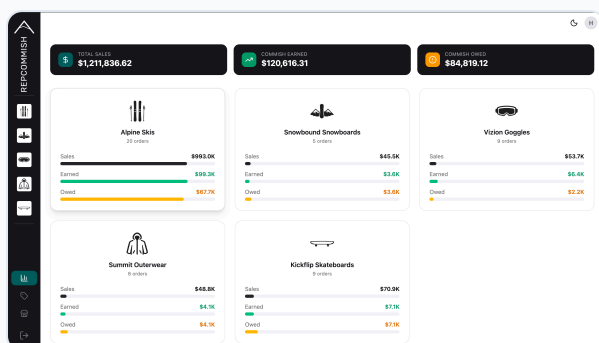

Reports & Exports

Clean PDFs and Excel reports for your accountant, your taxes, or that brand that keeps asking "can you send that again?"

Account Management

Contacts, notes, order history — all in one place. No more digging through emails to find "what's that guy's number again?"

WHY REPS LOVE IT

Built for reps, not IT departments.

Set up in 5 minutes. No training manual required. You'll be up and running before your coffee gets cold.

- ✓ Unlimited brands and orders
- ✓ Per-brand and per-category commission rates
- ✓ CSV import for accounts, sales, and payments
- ✓ Per-brand to-dos, notepad, and calculator
- ✓ Invoice and document attachments
- ✓ Dark mode (for the late-night sessions)
- ✓ Secure & private — your data is yours
